

CAPABILITY STATEMENT

PRAIRIE SKY UAV LLC

Prairie Sky UAV, LLC is one of the leading providers of UAS (drone) services for aerial data collection, imagery, and mapping. We utilize a variety of different data collection systems to collect and process accurate data in order to allow our clients to make better and more efficient decisions for their projects. We take all the guesswork out of complex and ever changing drone laws & regulations, allowing our clients to better allocate their time and effort to more important tasks. This helps to keep the project on-time, on-budget, verify regulatory & design constraints, and improve the overall safety of the operation.

DIFFERENTIATORS:

- OSHA 10 Certification
- H2S Awareness Certification
- Thermal Imaging & Inspection Capabilities
- Variety of different data collection methods to suit needs
- Multispectral Imaging for plant health analysis
- FAA Waiver granted for Operations over People
- FAA Waiver granted for Nighttime Operations
- Disaster Response Registry
- Site/Project specific safety and operational procedures
- Top/Bottom mounted camera capabilities for inspections
- Non-invasive, easily implemented. Drone operations can be performed without halting work on the project.
- Full set of data collection options from pre-planning, logistics & asset management, progress documentation, and more.

PRAIRIE SKY UAV

YOUR EYE IN THE SKY

701-428-2882

CAPABILITIES:

- Aerial Imaging & Video - HD Photography & Video up to 4K UHD
- Aerial Mapping - 2D Photogrammetry, 3D, DTM, DSM
- Aggregate & Stockpile Analysis
- Infrared (Thermal) Camera for inspections, SAR, Precision Ag
- Multispectral cameras for plant health analysis (NDVI)
- Aerial Inspections
- Progress monitoring & asset management

Multiple forms of payment accepted including check, direct deposit, and credit card / GPC (Pcard)
